

Seon API Plugin For WooCommerce

Overview

This extension connects Seon API with WooCommerce store and check every order with fraud api.

Feature

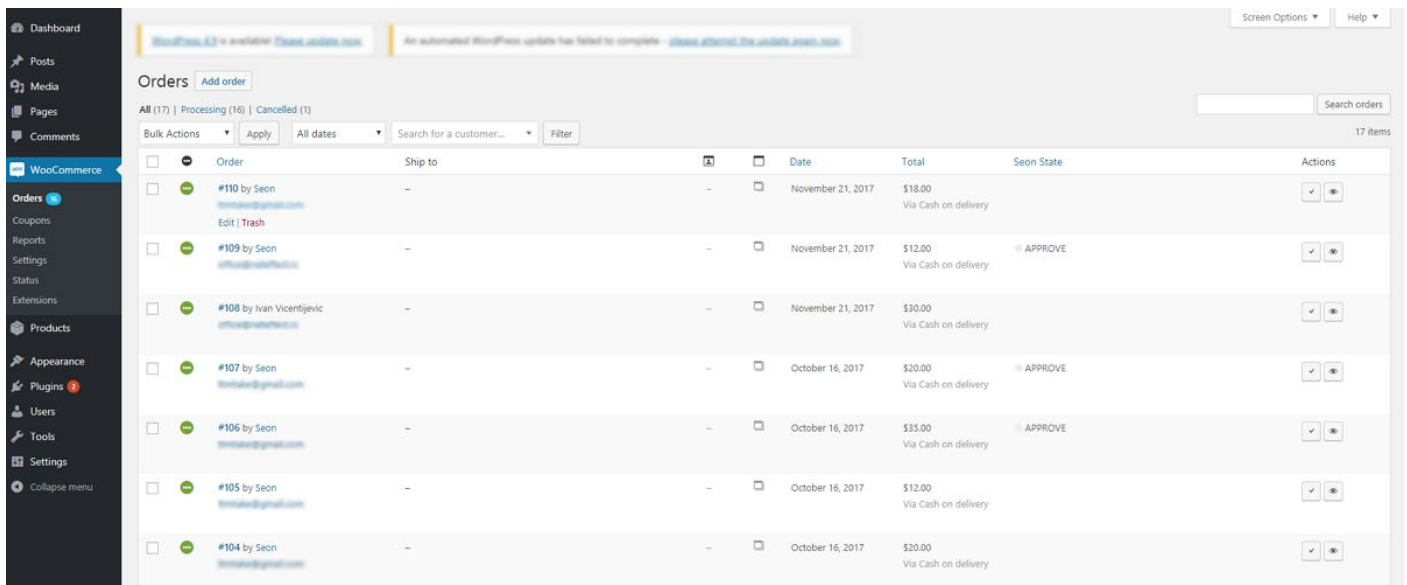

- Transaction Monitoring
- Friendly Fraud
- Stolen Credit Card Credentials
- Real Time Scoring

Installation

To install Seon API extension unzip module folders to **/wp-content/plugins/**.

Quick Guide

When Seon API plugin is enabled every order will be processed to Seon API where will be checked against any frauds and retrieve the response with a score and state that will be automatically integrated into the sales order grid.

The screenshot displays the WordPress admin dashboard with the WooCommerce 'Orders' page active. The left sidebar shows the navigation menu with 'WooCommerce' expanded and 'Orders' selected. The main content area shows a list of orders with columns for Order, Ship to, Date, Total, Seon State, and Actions. The 'Seon State' column shows 'APPROVE' for several orders. A search bar and bulk actions menu are visible at the top of the orders list.

Order	Ship to	Date	Total	Seon State	Actions
#110 by Seon [Email Address] Edit Trash	-	November 21, 2017	\$18.00 Via Cash on delivery		✓ ✖
#109 by Seon [Email Address]	-	November 21, 2017	\$12.00 Via Cash on delivery	APPROVE	✓ ✖
#108 by Ivan Vicentjevic [Email Address]	-	November 21, 2017	\$20.00 Via Cash on delivery		✓ ✖
#107 by Seon [Email Address]	-	October 16, 2017	\$20.00 Via Cash on delivery	APPROVE	✓ ✖
#106 by Seon [Email Address]	-	October 16, 2017	\$35.00 Via Cash on delivery	APPROVE	✓ ✖
#105 by Seon [Email Address]	-	October 16, 2017	\$12.00 Via Cash on delivery		✓ ✖
#104 by Seon [Email Address]	-	October 16, 2017	\$20.00 Via Cash on delivery		✓ ✖

In sales order view extra tab is added for viewing transaction details on Seon API direct from iframe.

The screenshot shows the WooCommerce admin interface. On the left is a sidebar menu with options like Dashboard, Posts, Media, Pages, Comments, WooCommerce, Orders, Coupons, Reports, Settings, Status, Extensions, Products, Appearance, Plugins, Users, Tools, and Settings. The main content area displays the 'SEON Transaction Details' tab. At the top, there's a 'Downloadable product permissions' dropdown. Below it, a table shows transaction details for a purchase. The table has columns for ID, Score, State, User, Action type, Label, Transaction Amount, and Date / Time. The transaction ID is 'cb02a06cb0fa', the score is '7.23', the state is 'APPROVE', the user is 'ID 1', the action type is 'purchase', the transaction amount is '12 USD', and the date is '2017-11-21 09:16:20'. Below the table, there's a section for 'Applied Rules' with columns for ID, Rule name, Action, Score, and Edit. The '7.23 Fraud score' is highlighted in red, and the '1.64 Email score' is highlighted in yellow. There are also buttons for 'Save details as PDF' and 'view'.

Settings

On **Settings > Seon** page in admin you can set settings for extension.

To get API Key please request demo on <http://seon.io/>

The screenshot shows the WooCommerce admin interface with the 'Settings' menu item selected in the sidebar. The main content area displays the 'SEON Fraud API' settings page. At the top, there's a header 'SEON Fraud API'. Below it, there's a section for 'API Licence Key' with a text input field containing a long alphanumeric string. There are two sections for 'Javascript Agent' and 'Activated', each with radio buttons for 'Enabled' and 'Disabled'. The 'Enabled' option is selected for both. At the bottom, there's a 'Save settings' button.
